

CWR for HIN-24-003

- **Currently received 8 total sets of comments**
 - Collected in google doc [here](#)
 - On inspection, no comments appear to be serious showstoppers
 - Hannah+Cristian have already done some preliminary work answering items (Thank you!)
- **Technically our CWR was supposed to end January 10th**
 - We were still receiving comments as of the 13th
 - Reached out to Olga to inquire; apparently there was a request for extension
 - Extension should 'end' today, and CWR should officially wrap ~1-2 days after
 - Anticipate ~1-2 more sets of comments
