

Welcome to CHEW 2021!

Topical Workshop on Axion Physics

Organizers: Pouya Asadi, Katie Fraser, Samuel Homiller, Qianshu Lu, Rashmish Mishra, Aditya Parikh, John Stout

Goal of the workshop: Cover a broad range of topics in axion physics.

Topics including:

- Axion-focused Experiments
- New experimental proposals
- New ideas in model-building
- Connections to astrophysics & Cosmology
- Connections to formal theory

Schedule:

Talks start at **10AM and 2PM** on Tuesday and Wednesday, and on **9AM and 1PM** on Thursday and Friday

Talks are 20+10 minutes

Please mute yourself during the talk, and use the raise hand feature to ask questions

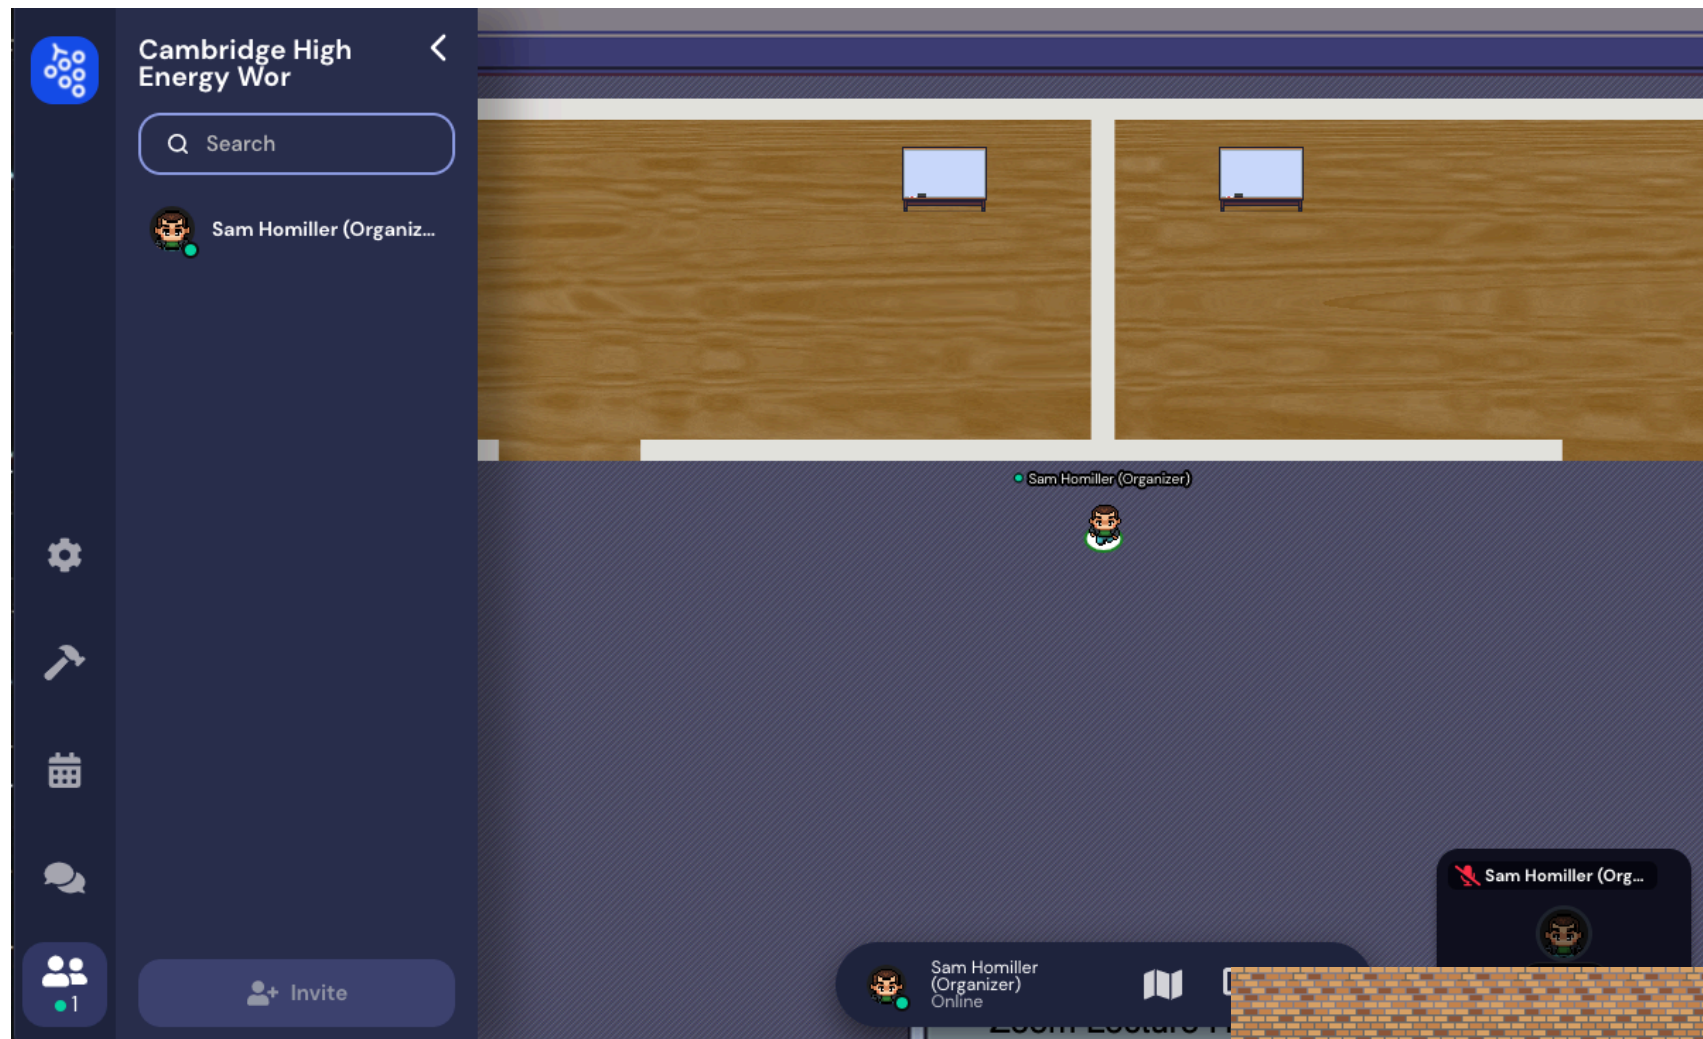

After the talks, join us on gather.town for follow-up discussions with the speakers (the room is open 24/7)

<https://gather.town/app/cgrs5eSqiiYXNDdV/Cambridge%20High%20Energy%20Wor>

See the timetable on indico for more details:

<https://indico.mit.edu/event/151/timetable/>

(slides & recordings will also be accessible from there)

Designated rooms for discussions after the talks

Can use the center room to return to Zoom
